

# SCHOOL LOCKDOWN SYSTEM

- **Rapidly deployable with no wires or cabling**
- **PC app allows you to locate and monitor activated units**
- **Sounds either a bespoke lockdown message or simple alert**
- **Various models to choose from**
- **1km transmission between units**
- **Long battery life of up to 3 years**

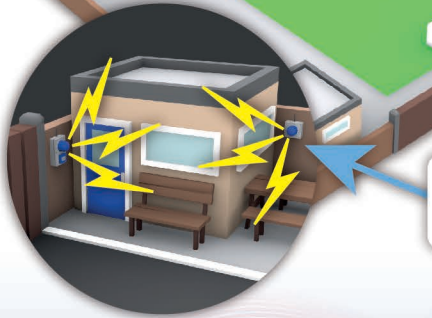

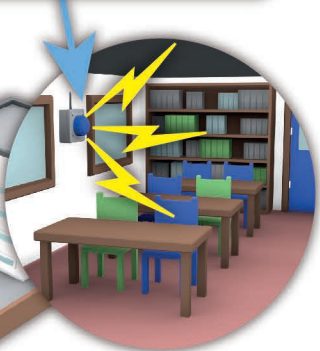

# SCHOOL LOCKDOWN SYSTEM

An IP Receiver can be added to the system so that call points can be **monitored and controlled** from one central location using the **PC app**

When activated, an **audible lockdown message or alarm** is sounded as well as a **visual alert**. **Decibel levels** can be individually set to suit the environment

**IP66 weatherproof** external units are available with **protective cages** if required
